

02 September 2017, Chennai, India

A Workshop on 'Why' and 'How' of Animation Films

Why an animation films?

Animation films give freedom to fantasize and fascinate the audience by moving inanimate objects. Compared to live action films, animation allows you endless scope for originality and novelty. Animation can be a fast and effective way of explaining anything. So much can be illustrated in just a short scene! Animation films have created a niche in the whole milieu of films.

How do you make an animation film?

The workshop will focus on techniques and tools of making an animation film. The topics will briefly cover ideation/writing/story boards; creating characters; animation, lighting, camera; final rendering and post production.
